

[4 August, 2000]

RAJYA SABHA

Bureau of Investigation for investigation of the available evidence with a view to work out whether a *prima facie* case is made out against the concerned units under the relevant sections of the Indian Penal Code. The exact amount of recovery from the urea manufacturing units and the mode of recovery thereof will, however, depend on the report of the Committee headed by Dr. Y. K. Alagh set up by the Government vide Resolution dated 19.5.2000 and the Government's decision thereon.

Decline in chemical industry

1407. SHRI SANTOSH BAGRODIA: Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

- (a) whether environmental pollution hazards are the main reasons for the decline of chemical industries in India;
- (b) if so, the reaction of Government thereto; and
- (c) the measures proposed to be taken to habitat these industries at safe locations?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a) There are no indications of decline of chemical industries in India due to environmental pollution hazards.

- (b) Does not arise.
- (c) The location of industrial units is regulated by zoning and land use regulations as also the environmental guidelines.

Fertilizers pricing policy

1408. SHRI J. CHITHARANJAN:
SHRI V. V. RAGHAVAN:

Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

- (a) whether it is a fact that a new long-term fertilizer pricing policy has been finalised and approved by Government; and
- (b) if so, the salient features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a)

and (b) The Government is still in the process of finalizing the new pricing policy for urea units. New Pricing Policy would be announced after obtaining the approval of the competent authority.

Use of coal at production off chemical fertilizers

† 1409. SHRI KAPIL SIBAL:

DR D. MASTHAN:

Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

- (a) whether the possibilities to use coal, instead of natural gas and naphtha, in the production of chemical fertilizer in the country are being explored;
- (b) if so, the action taken by Government in this direction;
- (c) whether it is a fact that the use of coal would reduce the production cost of fertilizer; and
- (d) if so, the estimated percentage of reduction in the cost of production?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI RAMESH BAIS): (a) and (b) In the context of dwindling supply of natural gas, which is the preferred feedstock for production of nitrogenous fertilizer and increase in the price of naphtha based on import parity prices, Government is exploring use of alternative feedstock like coal. Government have, therefore, constituted a Task Force on 7th March 2000 under the Chairmanship of Secretary, Department of Fertilizer consisting of the representatives of Ministry of Science & Technology, Ministry of Coal, Ministry of Power, Fertilizer Association of India, Council of Scientific and Industrial Research, Projects & Development India Ltd. etc. to explore the possibility of coal based technology for fertilizer sector. The Task Force has been asked to submit its report by 31st August, 2000.

(c)- and (d) Comparative cost of production of nitrogenous fertilizer based on coal as feedstock can be established only after a Detailed Feasibility Report is prepared in this regard.
